

age 12 through 14 months

Your Growing Child

A Family Brochure

Toddlers grow, change and learn differently. Here are some tips to help you enjoy and keep your toddler healthy and safe.

Call your clinic, public health nurse or school district if you have questions or concerns about your toddler.

Health

Appetite will vary depending on growth and activity. At this age toddlers:

- Need a Child and Teen Checkups health check at 12 months. Regular health checks are important. Ask your clinic about fluoride use, and a test for lead poisoning.
- Eat a lot one time and not much the next. Offer 3 meals and 2-3 snacks of soft table food a day.
- Use a cup, spoon or fingers to feed themselves. No more bottle! Give whole milk instead of formula.
- Need teeth and gums cleaned daily with a soft cloth or toothbrush. Regular dental visits start at this age!
- May sleep 10-12 hours at night and nap once a day.

Learning

Toddlers at this age:

- Say a few words, maybe even their name! They will also imitate you.
- Start to stand alone, walk and climb — even out of a crib!
- Wave bye-bye and play games like “peek-a-boo” or “hide-and-seek.”
- Are shy around strangers, and may cling to you when you leave.
- Get into everything. Use distractions and move objects you don’t want touched. Be a good role model and praise your toddler often!
- Sometimes become frustrated. Offer tools to use in frustrating situations — language in the form of words, gestures, asking for help, etc.

Safety

- **ALWAYS** use an approved car seat, properly secured in the back seat.
- Keep your hot water temperature below 120° F. Before bathing your toddler, check the water temperature with your wrist.
- Toddlers can drown in a small amount of water. Never leave your toddler alone in a bathtub, or near water.
- Never leave your toddler on a high place like a changing table, sofa, or kitchen counter.
- Don't let **anyone** smoke around your toddler.

- Always keep crib rails up and the mattress at the lowest setting.
- Keep plastic bags, balloons, safety pins and small objects such as coins and hard pieces of food away from your toddler.
- Use smoke detectors and check them twice per year (such as at daylight-savings time).
- Toddlers are curious. Lock up your guns and bullets separately. It's the law!
- Your toddler may wander away from you when you aren't looking. **Watch your toddler carefully.**
- Child proof your home! Keep medicines, poisons and sharp objects locked up. Use gates by stairs.
